Digital Range of Films for Thermal Laminating

A new innovative range of films for digital printers from Jet Technologies.

The first time digital printers will have Soft Touch and Anti-Scuff films available. Films perfect for A4 and A3 digital printing, quick turnaround and short run laminating – finishes designed for immediate laminating, even with the darkest of prints.

We offer gloss & matte, anti-scuff & Soft Touch® from Derprosa™, the inventors of soft touch top-coating technology.

The Film Range for Digital Printers

Film Range	Lengths	Widths
Digital Soft Touch	600m / 1200m	320mm / 445mm
Digital Anti-Scuff	600m / 1200m	320mm / 445mm
Digital Gloss	500m / 1500m	320mm / 445mm
Digital Matte	500m / 1500m	320mm / 445mm

Tested in Australia with Exceptional Results

Hewlett Packard	Konica Minolta	Fuji Xerox
HP 12000	Acurio C6100	Docucolor 550
	bizhub PRESS C1060	iGen4 & iGen5
	MGI	Versant 3100
		Color 1000i Press

Extend the possibilities for your customers with a Soft Touch or Anti-Scuff finish.
